

# Assignment 5 clinic System

Your friend Dr Ahmed finally opened his own clinic, and asked you to make a system that helps he and his assistant to manage the clinic in bellow sections:

- Receive, Approve and Follow up the customer appointments
  - Dr Schedule and available Dates and time
  - You asked to make class diagram that describe how this system will be developed by your developers
- 
- ❖ Note feel free to use any model field that you think it will helps
  - ❖ Note write controller methods that will be used in Console Screen only
  - ❖ Write the classes members and relations that proceed the hole logic
  - ❖ Don't forget to add controlling classes for each panel
